 Product Handling	<p>Dimension and data of general products on the market are for reference only. Please check the actual product Please note. It may be changed without notice regarding specifications or suspension products.</p>

About the antimicrobial SIAA mark

Three reassurances of the SIAA mark

Antimicrobial symbol established by the Society for Antimicrobial Products and Technologies (hereafter SIAA).

The SIAA mark is displayed on products that meet the following three criteria

- ◆Antimicrobial growth rate of bacteria shall be less than one-hundredth of that of surfaces of products without antimicrobial treatment and the antimicrobial effect shall be confirmed even after durability tests. Antimicrobial resistance is determined based on the results of tests conducted in accordance with the international standard ISO 22196.
- ◆SIAA's own safety standards are met.
- ◆The type of antimicrobial agent and the area of processing shall be clearly indicated.
